

Regarding your proposal to expand the LPFM, I am opposed to the proposal if it takes priority over FM translator systems. The only stations that are appropriate for my family are the stations that I financially support. The station that is my favorite is on an FM translator system. Please do not override my ability to hear this station. The station I am referring to is AIR-1 on 88.7 FM Phoenix. It is a positive station that does not have vulgar language and my kids also like it. That is why I support it and want to continue being able to hear it. Thank you.
